

Beginning Monday, August 15, construction work for the Dallas Area Rapid Transit (DART) Silver Line will take place on Hillcrest Road at the intersections of Wester Way and McCallum Blvd. in Dallas. This work includes demolition of sections of the medians and installation of asphalt detours for utility relocation. Construction work and utility relocations will continue through Friday, November 18, 2022.

The demolition of the medians at these two intersections will continue for approximately two weeks. Traffic will be maintained in the outside lanes during the median reconstruction. Starting on Monday, August 29, a traffic switch will occur, and one southbound lane and one northbound lane will be in the current southbound traffic lanes. The northbound lanes of Hillcrest Road between McKamy Blvd. and McCallum Blvd. will be closed for utility relocations.
