

Transportation Update – Frankford Road narrowing

Frankford Road will be narrowed to 4 lanes (2 in each direction) between Preston Road and Hillcrest for approximately 6 months, starting now. When that phase is complete, construction will move to the segment between Hillcrest and Coit. This phase is also estimated to last approximately 6 months. The City of Dallas is “reconstructing” Frankford. When construction is complete, new technology signal lights will be installed at intersections on Frankford from Coit through Campbell.
